

Instructions - Sensemaking - CLUSTERING

1. Cluster together Hexies with strongly associated meanings
2. Avoid super-clusters such as “communication” or “culture”
3. Using a different colour of Hexie, label each cluster with a short expression that links together the ideas in the cluster
4. This could be a label that expresses what needs to be done, such as:
 - "We want to improve ..."
 - "We want to foster/nurture ..."
